

Introduction

- This is an information brief on the topic of DoD 8570.01 Information Assurance workforce compliance and will address the following critical areas;
 - Information Assurance Technical (IAT) and Information Assurance Management (IAM) levels
 - Required documents and training for IAT levels I and II as well as IAM level I
 - The importance of Army Training and Certification Tracking System (ATCTS)
 - The Army e-learning and IA SIGNAL tool kit's
 - Certification voucher request and certification procedures

What is DoD 8570.01 IA Workforce Compliance?

- **IA functions** focus on the development, operation, management, and enforcement of security capabilities for systems and networks. Personnel performing IA functions establish IA policies and implement security measures and procedures for the Department of Defense and affiliated information systems and networks.
- **IA measures** protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality, and non-repudiation. This includes providing for their restoration by incorporating protection, detection, and reaction capabilities.
- As a condition of **privileged access** to any information system, personnel performing IA functions described in this Manual must satisfy both preparatory and sustaining DoD IA training and certification requirements. Additionally, personnel with privileged access must complete a Privileged Access Agreement.

Information Assurance Profiles

| | |
|---|--|
| IA Management Level I | IAM Level I personnel are responsible for the implementation and operation of an Information System (IS) within their CE. Personnel ensure that IA related IS are functional and secure within the CE. |
| IA Management Level II | IAM Level II personnel are responsible for the IA program of an IS within the NE. Personnel in these positions perform a variety of security related tasks, including the development and implementation of system information security standards and procedures. They ensure that IS are functional and secure within the NE. |
| IA Management Level III | IAM Level III personnel are responsible for ensuring that all enclave IS are functional and secure. They determine the enclaves' long term IA systems needs and acquisition requirements to accomplish operational objectives. They also develop and implement information security standards and procedures through the certification and accreditation process. |
| IA Technical Level I | IAT Level I personnel make the CE less vulnerable by correcting flaws and implementing IAT controls in the hardware or software installed within their operational systems. |
| IA Technical Level II | IAT Level II personnel provide network environment (NE) and advanced level CE support. They pay special attention to intrusion detection, finding and fixing unprotected vulnerabilities, and ensuring that remote access points are well secured. These positions focus on threats and vulnerabilities and improve the security of systems. IAT Level II personnel have mastery of the functions of the IAT Level I position. |
| IA Technical Level III | PIAT Level III personnel focus on the enclave environment and support, monitor, test, and troubleshoot hardware and software IA problems pertaining to the CE, NE, and enclave environments. IAT Level III personnel have mastery of the functions of both the IAT Level I and Level II positions. |
| CND-SP Analyst (CND-A) | CND-A personnel use data collected from a variety of CND tools (including intrusion detection system alerts, firewall and network traffic logs, and host system logs) to analyze events that occur with their environment. |
| CND-SP Infrastructure Support (CND-IS) | CND-IS personnel test, implement, deploy, maintain, and administer the infrastructure systems which are required to effectively manage the CND-SP network and resources. This may include, but is not limited to routers, firewalls, intrusion detection/prevention systems, and other CND tools as deployed within the NE or enclave. |
| CND-SP Incident Responder (CND-IR) | CND-IR personnel investigate and analyze all response activities related to cyber incidents within the NE or Enclave. These tasks include, but are not limited to: creating and maintaining incident tracking information; planning, coordinating, and directing recovery activities; and incident analysis tasks, including examining all available information and supporting evidence or artifacts related to an incident or event. |
| CND-SP Auditor (CND-AU) | CND-AU personnel perform assessments of systems and networks within the NE or enclave and identify where those systems/networks deviate from acceptable configurations, enclave policy, or local policy. CND-AUs achieve this through passive evaluations (compliance audits) and active evaluations (penetration tests and/or vulnerability assessments). |
| CND-SP Manager (CND-SPM) | CND-SPMs oversee the CND-SP operations within their organization. CND-SPMs are responsible for producing guidance for their NE or enclave, assisting with risk assessments and risk management for organizations within their NE or enclave, and are responsible for managing the technical classifications within their organization. |
| IASAE I | Applies knowledge of IA policy, procedures, and structure to design, develop, and implement CE system(s), system components, or system architectures. |
| IASAE II | Applies knowledge of IA policy, procedures, and workforce structure to design, develop, and implement a secure NE. |
| IASAE III | Responsible for the design, development, implementation, and/or integration of a DoD IA architecture, system or system component for use within CE, NE, and enclave environments |
| General User | A user who is granted use of Government Information Systems (IS) and access to Government networks. This is not an IA position. |
| Power User | Personnel with limited administrative privileges to their PC only. This is not an IA position. |

*The Associate of (ISC)² is for those who do not meet the professional experience requirements for the CISSP. The Associate status is good for a maximum of six years from the date you are notified by (ISC)² that you have passed the examination. Within that timeframe, you will need to earn the required experience and submit the required endorsement form for certification as a CISSP.

***Computing Environment (CE) certification (vendor exam or certificate of training) required for IAT levels, CND levels and IASAE levels personnel who are working technical function.

Army Training and Certification Tracking System

<https://atc.us.army.mil/iastar/index.php>

The screenshot shows the website's header with the U.S. Army logo and navigation links for 'register', 'login', and 'help'. A left sidebar contains a menu with items like 'Home', 'News', 'DoD Cyber Awareness Challenge Training', 'Your IA Training Profile', 'Registration Information', 'Compliance Information', and 'Documents'. The main content area features a banner with the text 'Anywhere, Anytime.' and a description of the system's capabilities. Below the banner are three informational boxes: 'Request Backlog' (yellow), 'Title CompTIA announces change to Continuing Education Program' (blue), and 'Voucher Request Procedures' (white). To the right, there are sections for 'All Users' (explaining AKO email registration), 'Online IA Training Links' (listing training sources), and 'Education & Awareness Links' (with logos for the Department of Defense, IASP, and COOL).

All Soldiers with NIPR access are already enrolled in ATCTS. This is where the Army tracks your annual IA Cyber Awareness Certification. If Soldiers do not have NIPR access they will need to register.

Coming Soon - a new version of SkillPort!

The Army e-Learning Program is planning to migrate to the new SkillPort 7.3. This version will provide users with the capability to access numerous business courses via their mobile devices. You will see enhancements in the ability to add course topics to your MyPlan as well as the ability to complete recurring training requirements. In an effort to provide you with the most relevant and up-to-date course catalog, during the upgrade numerous retired courses will be removed from the catalog as well as old versions of courses, i.e. Microsoft 2003 and previous. A list of the courses that will be removed will be published within the next two weeks for your planning purposes. The upgrade is scheduled to take place 23-25 May (over the Memorial Day holiday). During that time the Army e

The Army Learning Management System (ALMS)

ANNOUNCEMENTS

Please plan your work accordingly

Notice (03/14/2014) - The ALMS is scheduled to be offline for maintenance on Wednesday, 03/19/2014 from 7:00 PM EDT until 1:00 AM EDT on 03/20/2014, on Wednesday 03/26/2014 from 7:00 PM EDT until 3:00 AM EDT on 03/27/2014, and on Wednesday, 04/02/2014 from 7:00 PM until 1:00 AM EDT on 04/03/2014. Please plan your work accordingly.

1. OPSEC Training V2 on the ALMS was discontinued 22 AUG 2013 by the proponent.
2. For current Army-wide standardized computer web-based security training requirements, refer to ALARACT 207/2013. (Does not replace OPSEC training requirements).
3. The courses "Initial Security Orientation" and "Annual Security Refresher" are now available under the ALMS mandatory training tab. These courses are Army-wide requirements for all military, civilian, and contractors referenced in ALARACT 207/2013

[Register for Army e-Learning](#) | [Army e-Learning Course Catalog](#) | [Login to Army e-Learning](#)

CLICK ON THE "REGISTER FOR ARMY E-LEARNING" LINK ABOVE TO ACCESS THE 5,000+ WEB-BASED IT, BUSINESS, AND PERSONAL DEVELOPMENT COURSES THAT ARE AVAILABLE TO ARMY EMPLOYEES.

State-of-the art Computer Based Training available for free to the Army Workforce

At no cost to the individual or their organization, all active duty soldiers, members of the National Guard or Reserves, Department of the Army civilian employees, and USMA and ROTC cadets are authorized to access over 5000 Information Technology, Business Skills, and Interpersonal Skills courses from any location, around the clock (24/7). All you have to do to use Army e-Learning is get an [Army Knowledge Online \(AKO\)](#) account and complete your registration through ATRRS (you do NOT need an ATRRS Logonid/Account to register). Be sure to browse the [Army e-Learning Course Catalog](#) to see the courses available to you.

Promotion Points for Vendor-Based Courses

According to HRC Enlisted Promotions Branch, effective immediately, promotion points are valid under military education for completion of vendor-based e-Learning courses. Course completion with credit hours must be reflected in ATRRS prior to awarding promotion points. Promotion points are awarded under the same guidelines as correspondence courses (5 training hours = 1 promotion point).

College Credit for Army e-Learning Courses

Forty Army e-Learning Courses have been approved for college credit by the American Council on Education (ACE). Log into AKO and go to My Education>Army e-Learning to find documents describing the procedures for receiving ACE credit.

ATRRS Army e-Learning Training Application

To access this web site you must first be authenticated as an authorized user. Authorized users are: Department of the Army Active Duty, Army National Guard, Army Reserves, Department of the Army Civilian employees, USMA and ROTC Cadets III and IV, and Department of the Army Local National employees. Examples of users that are NOT AUTHORIZED Army e-Learning access are contractors, retired personnel, any NON-ARMY SERVICE MEMBER OR CIVILIAN, contractors, retired personnel, and dependents. If you believe you are eligible, then click the button below to continue the registration process.

The information presented on this web site can not be reused, copied, duplicated, or distributed for non-ATRRS purposes without written permission from Military Personnel Management (DAPE-MPT), HQDA Army G-1, U.S. Army. Army eLearning

Welcome to the Army e-Learning Program.

- ATTENTION: As of 11 April 2014, the MCSA/MCSE Knowledge Center will no longer be available. The MCSA/MCSE Knowledge Center is being replaced with the Microsoft Enterprise Solution Knowledge Center.** The new Microsoft Enterprise Solution Knowledge Center is available now. This new knowledge center will provide the most up to date information and provides training for those new or already familiar with the Microsoft suite of applications. Different roadmaps target those already using Microsoft technologies, those preparing for MCTS certification, and those preparing for MCITP certification. To access the Microsoft Enterprise Solution Knowledge Center, click on the Knowledge Center tab on the left side of the page or Click on the Catalog Tab on the left and then click on the Microsoft Enterprise Knowledge Center icon. View a 4 minute tour of the knowledgecenter: https://community.skillssoft.com/products/kc_tours/enterprise_solutions_tour.swf
- Coming Soon - a new version of SkillPort!**

The Army e-Learning Program is planning to migrate to the new SkillPort 7.3. This version will provide users with the capability to access numerous business courses via their mobile devices. You will see enhancements in the ability to add course topics to your MyPlan as well as the ability to complete recurring training requirements.

In an effort to provide you with the most relevant and up-to-date course catalog, during the upgrade numerous retired courses will be removed from the catalog as well as old versions of courses, i.e. Microsoft 2003 and previous. A list of the courses that will be removed will be published within the next two weeks for your planning purposes.

DoD 8570.01 Baseline and Computing Environment Certification Training Requirements for All IAT and IAM Levels

The screenshot shows the Army eLearning Catalog interface. The browser address bar displays the URL <https://usarmy.skillport.com/skillportfe/main.actic>. The page features a search bar with the text "SEARCH & LEARN" and a search button. Below the search bar, there are dropdown menus for "Category" (set to "All") and "Language" (set to "English (All)").

The main content area is titled "Catalog" and lists various training courses. A red arrow points to the course "CIO-G-6/Cyber Security IA/IT Training". Other visible courses include "1 Hour Courseware", "Business Certifications", "Business Skills Curricula", "Desktop Certifications", "Desktop Curricula", "IT Professional Certifications", "IT Professional Curricula", "Army Custom Curricula", "ACE College Credit Courses", "Army Signal Captain's Career Course - RC", "CCAD", "Lean Six Sigma Course Curricula", "Business Exploration Series", "Express Guide View", "Test Preps", "DoD 8570.1 KnowledgeCenter", "Leadership KnowledgeCenter", "Microsoft MCSE & MCSA Certification KnowledgeCenter", "Project Management KnowledgeCenter", "RRAD", and "Microsoft Enterprise Solutions KnowledgeCenter".

On the left side of the page, there is a sidebar with the following sections:

CompTIA Security+ SY0-301

The screenshot shows a web browser window with the URL <https://usarmy.skillport.com/skillportfe/main.actic>. The browser's address bar and tabs are visible at the top. The main content area displays a list of training courses under the heading "CIO-G-6/Cyber Security IA/IT Training". The course "CIO/G-6 SECURITY+ (SY0-301)" is highlighted, and its description is expanded. The description lists various modules for CompTIA Security+ 2011, including "Control Fundamentals and Security Threats", "Network Protocols, Attacks, and Defenses", "Securing Networks and Performing Security Assessments", "Network and System Security Mechanisms", "Remote Access and Wireless Security", "Authentication, Biometrics, and Security Controls", "Securing the IT Environment", "Cryptography and Public Key Infrastructures", "Securing Applications, Virtualization, & Cloud Computing", and "BC, DR, Security Training, and Forensics". Below the description, there are links for "Security + Test Prep and Mentoring (Optional)", "TestPrep SY0-301 Security+", and "Mentoring SY0-301 Security+". Other courses listed include "NETCOM IA SYSTEMS SECURITY CERTIFIED PRACTITIONER (SSCP) 2012", "CIO G-6/NETCOM IA Technical Level 1", "CIO/G-6 NETCOM - GIAC Systems and Network Auditor (GSNA)", "CIO/G-6 NETCOM IA ISSEP", and "CIO/G-6 NETCOM - GIAC Technical Modules".

Customizable “My Plan”

The screenshot shows a web browser window with the URL <https://usarmy.skillport.com/skillportfe/main.actic>. The page title is "Army eLearning My Plan". The browser's address bar shows the URL, and the tabs bar shows the current tab. The page content includes a search bar with the text "SEARCH & LEARN", a search input field, and dropdown menus for "Category" (set to "All") and "Language" (set to "English (All)"). A "Search" button is located to the right of the search input. Below the search bar is a "My Plan" section with a "View" dropdown set to "Folder". The "My Plan" section displays a file explorer view of a folder named "Personal", which contains several sub-folders: "Server+", "Win 7 Config", "WOAC 254A", "Network+", "A + Part 1", and "A + Part 2". On the left side of the page, there is a sidebar with a "MY PLAN" section, a "MY PROGRESS" section, and a "CATALOG" section. The "CATALOG" section lists various links: "Technical Support", "My Profile", "Books 24x7", "KnowledgeCenter", "Download Certificates", "Course Download Instruc...", "SkillPort 7.0 Quick Sta...", "Process for Setting Rec...", "Information Assurance A...", and "FAQ". In the top right corner, there is a user greeting: "Welcome Carl, Logged In: Apr 10, 2014 5:03 PM | My Profile | Help | Log Out". Below the greeting are links for "Credentials", "Home", and "Books24x7". In the bottom right corner, there is a "POWERED BY skillsoft" logo.

IA Signal Training Center

<https://ia.signal.army.mil/>

The screenshot shows a web browser window displaying the IA Signal Training Center website. The browser's address bar shows the URL <https://ia.signal.army.mil/>. The website's navigation menu includes links for HOME, LOGIN, COURSES, MTT, LOCATIONS, RESOURCES, and CONTACT. The main content area features a large header with the text "INFORMATION ASSURANCE TRAINING CENTER" and "US ARMY SIGNAL CENTER FORT GORDON, GA". Below this, a central message reads: "Welcome to the Cyber Electro Magnetic Activities (CEMA) Division". The message states that the Information Assurance (IA) Division, U.S. Army School Cyber Leader College, provides high quality Information Assurance/Computer Network Defense training and certification for Department of Defense personnel worldwide. It also mentions that the division provides training primarily for Department of Army personnel, but has also trained personnel from all services and other federal agencies, including the U.S. Air Force, U.S. Navy, U.S. Marine Corps, U.S. Coast Guard, Department of Defense civilian and contract employees, Department of Energy, and the Federal Aviation Administration. A note at the bottom of the message states: "The branch is also responsible for research, course development, and the distribution of course materials to our satellite sites worldwide. We make every effort to remain on the cutting edge of technology and safeguard the Army's networks." To the left of the main content, there is a sidebar titled "INFORMATION ASSURANCE SITES" with a list of links: DISA, ATCTS, Army Europe- ITT (AE-ITT), US ARMY IA & COMPLIANCE, IASE, US ARMY IA VIRTUAL TRAINING, IA Documents, IATC(BBP), DOD 8570.01, DoDD 5200.1-R, AR 25-2, and CompTIA Continuing Education. Below the sidebar are logos for CNET Website, SANS Storm Center, and the DOD Cyber Awareness Challenge. To the right of the main content, there is a sidebar titled "Training Opportunities" with a list of courses: A+ 001-14 (1/27/2014-2/7/2014) FT Detrick, A+ 001-14 (1/27/2014-2/7/2014) FT Detrick, and A+ 1404A (3/17/2014-3/28/2014) Fort Hood. Below the training opportunities are logos for OWA, DCO, AKO, TKE, SP 2010, COP, SLL, DOCTRINE, The Signal, and LANDWARNET UNIVERSITY.

Must Have an Approved DoD CAC Card

Information Assurance User Portal

CAC only Authentication through SSO. To secure access to Army IT systems IAW DoD Policy (CTO 07-015) all applications and devices will be configured to only allow authentication via CAC/PKI credentials for CAC holders. All Army IT systems utilizing usernames and passwords via AKO for authentication must convert to PKI-based authentication for CAC holders.

- This is an AKO/DKO account driven web site. If you do not have an AKO/DKO account, you will need to obtain one by contacting AKO/DKO before proceeding further.
- If you have an AKO/DKO account, but do not remember your credentials, you will need to contact AKO/DKO to obtain credential information.
- Your CAC must be registered with AKO/DKO before you can log in using your CAC. If you have not registered your CAC, contact AKO/DKO.

Information Assurance Courses

FT. GORDON ONLINE COURSES

NOTICE: Please read this important document about new DoD Information Assurance Awareness training. Beginning November 30, 2007 the DoD Information Assurance Awareness training will replace the Computer User Security training and exam. Please read the following document for further information:
[DoD Information Assurance Awareness Training Information Paper.](#)

NOTICE:
[Information on CompTIA Continuing Education Process and tokens](#)

[DoD Cyber Awareness Challenge Training "formally known as. DoD Information Assurance Awareness Training"](#)
This training has been developed to fulfill Information Assurance training requirements mandated by the signed [DoD Information Assurance Awareness Training Requirement memo](#). This course will satisfy the following requirements: Information Assurance Awareness initial certification and refresher courses.

Army is moving to one certificate

[Information Assurance Fundamentals Updated on 23 April 2010](#)
PLEASE NOTE: Course topics were reviewed by ISC(2) and CompTIA and counts for the following CPE credits: CISSP(40 CPEs), Sec+ (40 CPEs), Net+ (24 CPEs) and A+ (16 CPE) credits. You must enter the topic and end of course certificate in your respective certification vendor account.
This course provides individuals an understanding of the information systems security policies, roles, responsibilities, practices, procedures, and concepts. The lessons presented here will aid in developing an effective, overall security approach and in selecting cost-effective controls to meet the requirements of laws, directives, and regulations.

This training does not meet the DoD WNSF requirements.

[Army Specific Phishing Training](#)

PLEASE NOTE: We do not offer Thumb drive awareness or OPSEC for Social Media training. You can find these at the [Army IA Virtual Training site](#).

FT. GORDON RESIDENT COURSES

[Security+ Course](#)

You Must Complete all Modules and Pass Exam with 70%

Information Assurance Fundamentals Training

Directions: Read information of this course carefully. Review each course lesson. Once all course lessons have been reviewed, log on to our secure website to take the exam.

Purpose: This course provides individuals an understanding of the information systems security policies, roles, responsibilities, practices, procedures, and concepts necessary to perform the functions of an Information Assurance Security Officer (IASO). The lessons presented will aid the IASO in developing an effective security approach and in selecting cost-effective controls to meet the requirements of laws, directives, and regulations.

Objectives: The objectives of this training are listed as follows.

- Explain the threat to and vulnerabilities of information systems (IS).
- Employ appropriate security countermeasures to manage the threat and minimize vulnerabilities.
- Identify required physical, personnel, and procedural security for IS.
- Describe the elements of the IS accreditation and certification.

Additional Information: To successfully pass this training, students must receive 70% or greater on the exam. Once the exam is passed, students will have a certificate of completion (see [Login Page](#) for information on printing certificates). **NOTE:** If a student fails the exam, he/she must wait 16 hours before being allowed to retake the exam.

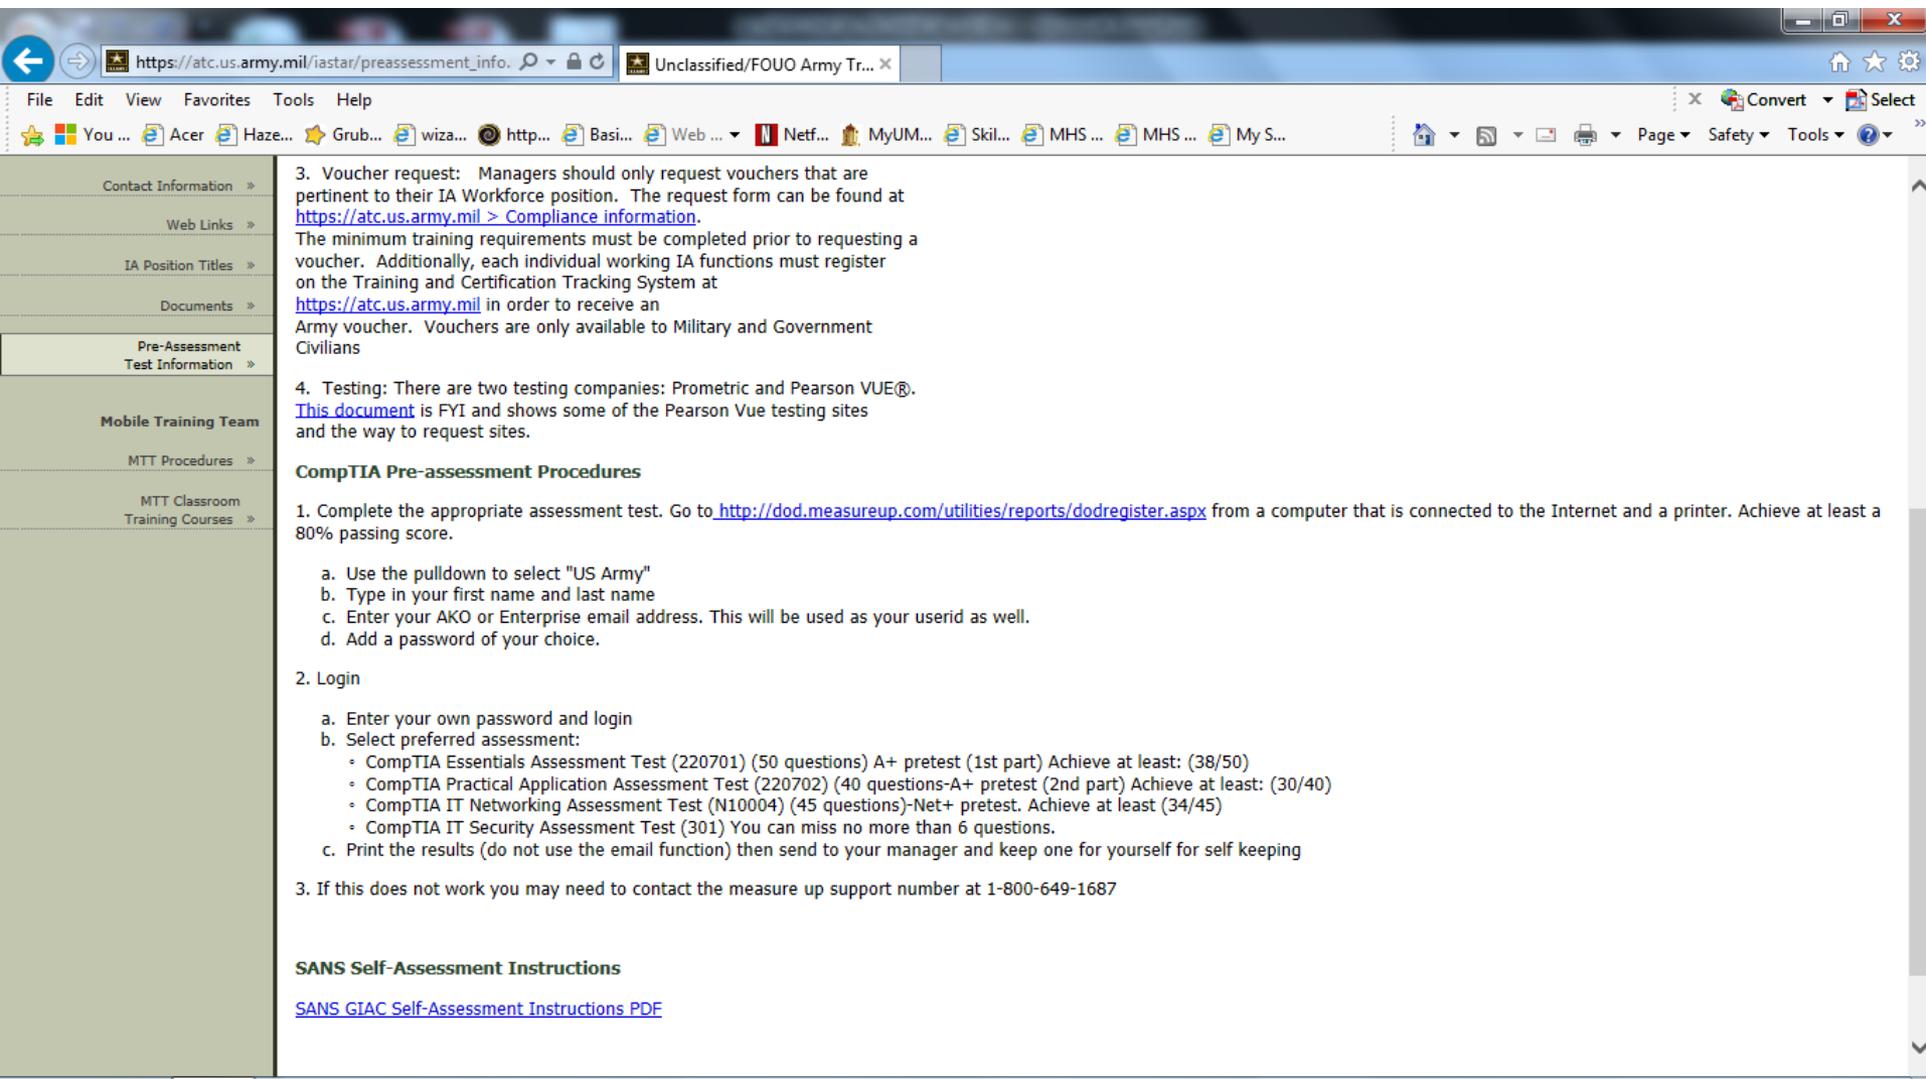

Lessons: Use each link to review the numbered lessons. Once completed, click the *Take the Exam* link to complete the test.

ATCTS showing 8570.01 CompTIA pretest (MeasureUp) procedures and requirements

The screenshot shows a web browser window with the address bar displaying https://atc.us.army.mil/iastar/preassessment_info. The browser's address bar also shows a security warning: "Unclassified/FOUO Army Tr...". The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The browser's toolbar includes various icons for home, search, and printing. The browser's status bar shows the page title "Convert" and "Select".

The main content area of the browser displays the following text:

3. Voucher request: Managers should only request vouchers that are pertinent to their IA Workforce position. The request form can be found at <https://atc.us.army.mil> > [Compliance information](#). The minimum training requirements must be completed prior to requesting a voucher. Additionally, each individual working IA functions must register on the Training and Certification Tracking System at <https://atc.us.army.mil> in order to receive an Army voucher. Vouchers are only available to Military and Government Civilians

4. Testing: There are two testing companies: Prometric and Pearson VUE®. [This document](#) is FYI and shows some of the Pearson Vue testing sites and the way to request sites.

CompTIA Pre-assessment Procedures

1. Complete the appropriate assessment test. Go to <http://dod.measureup.com/utilities/reports/dodregister.aspx> from a computer that is connected to the Internet and a printer. Achieve at least a 80% passing score.

- Use the pull-down to select "US Army"
- Type in your first name and last name
- Enter your AKO or Enterprise email address. This will be used as your userid as well.
- Add a password of your choice.

2. Login

- Enter your own password and login
- Select preferred assessment:
 - CompTIA Essentials Assessment Test (220701) (50 questions) A+ pretest (1st part) Achieve at least: (38/50)
 - CompTIA Practical Application Assessment Test (220702) (40 questions-A+ pretest (2nd part) Achieve at least: (30/40)
 - CompTIA IT Networking Assessment Test (N10004) (45 questions)-Net+ pretest. Achieve at least (34/45)
 - CompTIA IT Security Assessment Test (301) You can miss no more than 6 questions.
- Print the results (do not use the email function) then send to your manager and keep one for yourself for self keeping

3. If this does not work you may need to contact the measure up support number at 1-800-649-1687

SANS Self-Assessment Instructions

[SANS GIAC Self-Assessment Instructions PDF](#)

Register for Access and Specific Exam; Print Results for upload to ATCTS (you can retake the exam as many times as needed)

The screenshot shows a web browser window with the address bar displaying <http://dod.measureup.com/utilities/reports/dodregis>. The page title is "DOD Registration Form". The browser's taskbar shows several open applications, including "You...", "Acer", "Haze...", "Grub...", "wiza...", "http...", "Basi...", "Web...", "Netf...", "MyUM...", "Skil...", "MHS...", "MHS...", and "My S...".

The website content includes the MeasureUp logo with the tagline "Online Assessment Testing". Below the logo, there is a welcome message: "Welcome to the DOD Assessment Tool!". This is followed by a paragraph explaining the tool's purpose: "The purpose of the DOD Assessment tool is to help individuals quickly identify whether their knowledge and skills of the exam content are current based on the most recent CompTIA exam objectives." Another paragraph states: "First Time Users please enter your information in the text boxes provided to get started. This tool is licensed for DoD Employees only." A third paragraph says: "If you are a government contractor you do not have permission to use this tool." A fourth paragraph notes: "Please note that we do not keep a record of your score. *This quiz does not affect your certification status.*"

An "ATTENTION!" section follows, with two columns of instructions. The "First Time Visitors" column includes the note "Fields marked "*" are required." and "Please select...from the available DOD Division". It contains a dropdown menu for "DOD Division:" with the text "Select DOD Division" and a downward arrow. Below this are input fields for "Firstname:*" and "Lastname:*". The "Returning Users" column includes the instruction "Returning Users Please click below to Login" and a button labeled "Go to Learning Locker".

Below the "First Time Visitors" section, there is a note: "Your email address will be your username". This is followed by input fields for "Email Address:*", "Password:*", and "Re-Enter Password:*".

| Date: | 6/13/2011 5:33:12 PM | Time Taken: | 26 minutes |

| Question# | Objectives |
|---------------------------------------|---|
| <input checked="" type="checkbox"/> 1 | 2.1 Differentiate between the different ports & protocols, their respective threats and mitigation techniques. |
| <input checked="" type="checkbox"/> 2 | 4.3 Within the realm of vulnerability assessments, explain the proper use of penetration testing verses vulnerability scanning. |
| <input type="checkbox"/> 3 | 5.2 Explain basic hashing concepts and map various algorithms to appropriate applications. |
| <input checked="" type="checkbox"/> 4 | 1.6 Understand the concept of and know how to reduce the risks of social engineering. |
| <input checked="" type="checkbox"/> 5 | 3.3 Organize users and computers into appropriate security groups and roles while distinguishing between |

Voucher Request Form and Certification Scheduling

- Once you have completed all required pre-requisite training and documentation properly uploaded to ATCTS you will fill out the voucher request form. Your units IAM (senior Information Assurance Manager) will upload the document to ATCTS. A voucher number will follow with a unique serial number which you give to the testing facility.
- Most installations have a Pearson Vue or Pro Metrics certified testing facility, if you are unsure please contact the local NEC IA branch for direction on where to take your voucher and schedule an exam.
